Camelot Homes has designed a stunning nine-room residence. The three-foot high wall surrounding the formal dining room and library maintains privacy while creating an open courtyard effect. The family room affords a panoramic view of the lake and includes a wet bar and other custom built-ins. The master bedroom features his-and-hers walk-in closets as well as a separate dressing area affixed with custom mirrors.

A tray ceiling and wood-burning fireplace highlight the living room. A fully equipped gourmet kitchen features a semi-circular breakfast nook with a 12-foot ceiling. The patio area, with its pool and spa, is highlighted by the covered outdoor entertainment center equipped with wet bar and grill.
