

BRITTANY I

Gulfoast Homes is proud to unveil the Brittany I in the 1997 Parade of Homes. The Brittany is a four-bedroom/three-bathroom home with a formal dining room, study, living room and gathering room in 2,881 square feet of living space.

Along with its stunning interior, the Brittany features expansive views of the outdoors. From the entry foyer, the eye is drawn through the formal living room to the over-sized lanai complete with pool and spa. The design is open and flowing, allowing one to move easily from one space to the next. Formal and informal entertainment spaces flow together with ease, creating an overall feeling of space and light.

In the gathering room of the Brittany I is a built in entertainment center with mantle and fixed glass above. This entertainment center was accorded special recognition during the 1996 Lee Building Industry Association Parade of Homes.

Gulfoast Homes, a Beazer Homes Company, has been building homes of quality and value since 1980. Today, more than 800 Gulfoast Homes dot the landscape of Southwest Florida. Operated by brothers Craig and Norman Bloxham, Gulfoast Homes is proud of its reputation for building excellence.
