

Estuary offers the ultimate in tranquility and serenity for the 185 families who will be fortunate enough to call this exceptional community home. Each private cul-de-sac secludes an enclave of private estates with crystal lakes, subtropical flora and private fairway views of the Bob Cupp signature course. In addition, over 50-acres of wildlife preserve are nestled throughout the property and border the scenic headwaters of the Gordon River.

Estuary's artistically sculpted site plan embodies the vision of two prominent real estate developers with a history of excellence in Florida: Barron Collier Companies, Collier County's Founding Family, and the Lutgert Companies, a steady influence in the Naples building industry since 1964.

Sharing a commitment to environmental stewardship and a dedication to preserve the natural beauty and legacy of this land for future generations, the Colliers and Lutgerts have partnered to create Estuary at Grey Oaks, the finest address in all of Naples.
