

**T**his 28-unit condominium development was carefully designed by architect Al Platt of Brevard, North Carolina to blend harmoniously with the quiet ambience of Sapphire Lakes' other residences.

Located in the very heart of the magnificent Sapphire Country known for its abundant, unspoiled beauty, Racquet Club Villas are only moments away from the wonder of waterfalls, crystalline mountain lakes and scenic rushing streams.

With tennis at the doorstep and majestic mountain scenery at the window, leisure and scenic splendor are artfully brought together at Racquet Club Villas.

The Villas are laid out in a U-shape around the tennis courts, which also places owners within walking distance of every other major recreational amenity Sapphire Lakes provides—the new tennis pro shop, 18-hole championship golf course, pool pavilion and future clubhouse.

For optimum privacy, each Villa will house only two or four units. By limiting the number of total units to 28, we have created an exclusive condominium development which offers some of the very finest views of the beautiful Blue Ridge Mountains.
