

"The Spellbinder"

This three-bedroom, two-bath home designed and built by **Moon Lake Development Co.** is aptly named. It has soaring, 15-foot-high ceilings, palladian windows, curved walls, arched openings, french doors, tile roof, roman tubs and all the other touches of much more expensive homes.

The "Spellbinder" has a great room, dining room, morning room, two-car garage, outdoor room and a kitchen that builder Burt Binder says "will take your breath away."
