

The Associate Home

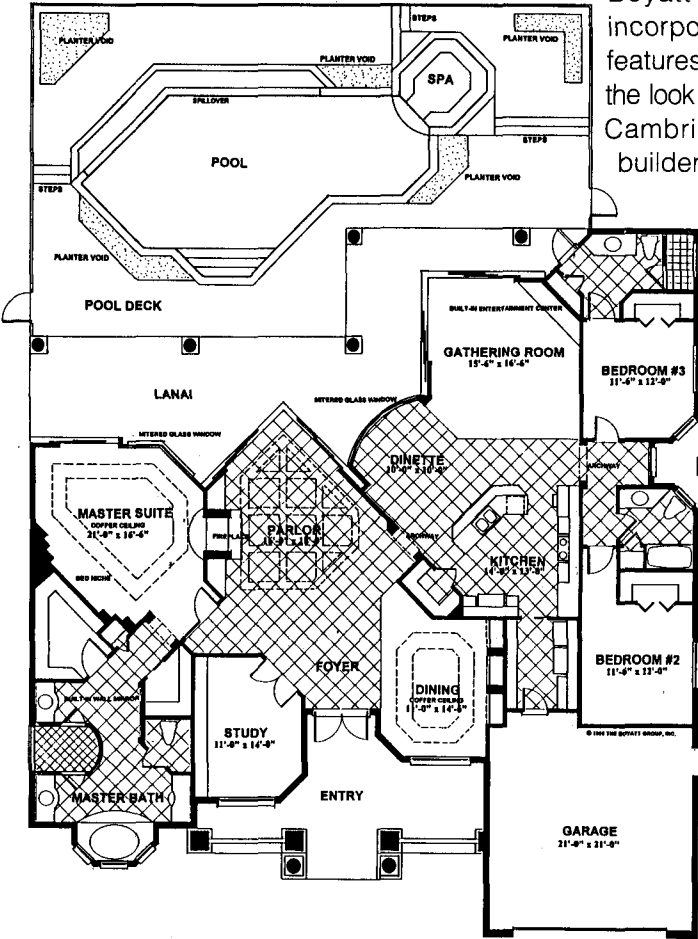

The Associate Home is a showcase home for the Collier Building Industry Association (CBIA) and is built totally by its membership. The Associate Home is a 2,700-square-foot, three-bedroom, study, three-bath split plan. Home designer Tony Boyatt of the Boyatt Group said, "We have incorporated many new design features into this home, giving it the look of the '90s." Bill Slavich of Cambridge Communities, Inc., builder of the Associate Home, added "This home was designed to maximize the lake views offered on this particular lot in Longshore Lake. With more than 60 feet of glass along the rear of the house, nearly every room has expansive lake views."
