## The Villages of Eagle Creek

### Cypress Pointe Preserve

Privacy and elegance are evident in this community of single-family homes. Bordered by the golf course or Eagle Creek, Cypress Pointe Preserve offers the discriminating homeowner a wide selection of views and privacy.

### Creekbed Estates

Eagle Creek and the golf course wind through this charming community of single-family homes. Cedar shake roofs and wood trim set the tone for this casual, yet striking, section where privacy is enhanced by cul-de-sacs.

### Cypress View Village

Nestled between the 1st, 2nd and 3rd holes, this small community is close to the clubhouse. Spacious lanais offer sweeping and private views of nature. Cathedral ceilings and skylights provide openness and light.

### The Keep

A private enclave of only 14 homes, The Keep is Eagle Creek's most intimate village. Sheltered behind a hedge of privacy, these 3-bedroom villas offer 12-foot volume ceilings, attached 2-car garage as well as its special ambience.

### Crystal Lake Villages

Flanking the shores of Crystal Lake are Eagle Creek's most popular condominium floor plans. High ceilings and spacious lanais make these two and three bedroom homes especially comfortable. Garages and individual storage rooms add to the value.

### Stonegate Village

Views of the 4th fairway are yours forever from the two and three bedroom homes in this condominium. Gather at your own pool/spa complex with your neighbors and discuss the day's golf or tennis. Upgrade appointments set Stonegate apart.

### Carriage Village

Elegant and gracious living is evident in Carriage Village. The detached carriage house affords privacy for your guests. Crystal Lake sparkles in the background as you entertain on the pool lanai. With only 15 units, Carriage Village also offers intimacy.
